namely Claims 1 to 66 and 72 to 74. The Restriction Requirement, however, is traversed.

Traversal of the restriction requirement is on the ground that there would not be undue burden in examining the four groups of claims in a single application. In particular, MPEP § 808 makes it clear that in order to require restriction between independent or distinct inventions, reasons for insisting upon a restriction requirement, such as undue burden, must also be shown. In the present instance, it is not believed that there would be an undue burden in examining the claims of Groups I, II, III and IV in a single application, since the four groups of claims are not so unrelated as would require a burden on the Examiner that is significantly beyond that of the normal burdens of examination.

Applicants' undersigned attorney may be reached in our Costa Mesa, California office at (714) 540-8700. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,

  
Attorney for Applicants
